XYZ Oil & Gas Co.

Example Well #3
Field # 34-B

Gas Meter

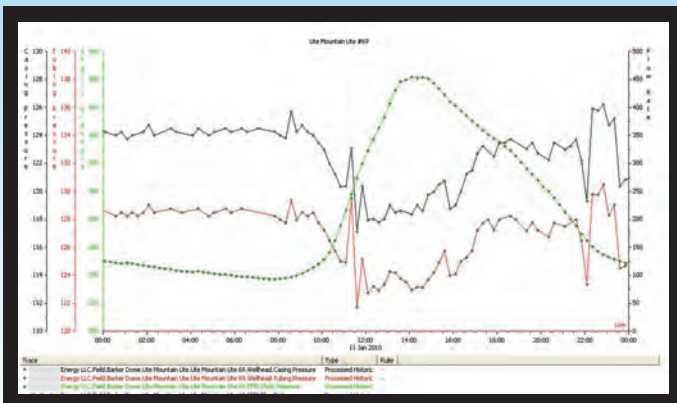

Flow Rate	Differential Pressure
MCF Today	Static Pressure
MCF Yesterday	Flow Temperature
MCF Month to Date	
Total Flow	

Base Pressure: 14.73
Dintra Diameter: 4.000
Base Temperature: 60.00
Pipe Diameter: 0.876

Water Tank 1 Oil Level: 2.42 feet
Water Level: 54.71 in
Temp Level: 99.7°
Oil Tank 1 Level: 16.10 feet
Oil Tank 2 Level: 5.40 feet

Reports

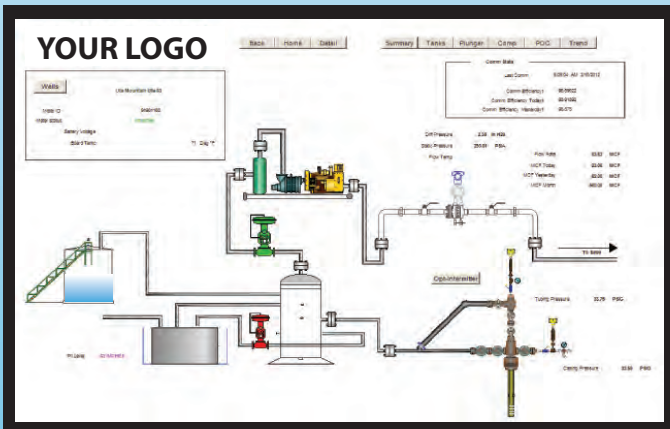

Remotely Controlled Mechanisms with Interactive Graphics. Security.

Control mechanisms such as valves, pumps, switches, and more with point and click graphic interaction from your computer or a with a command from your mobile phone. Your system is secure, keeping your information untouched, and touched by only those with a secure login and password.

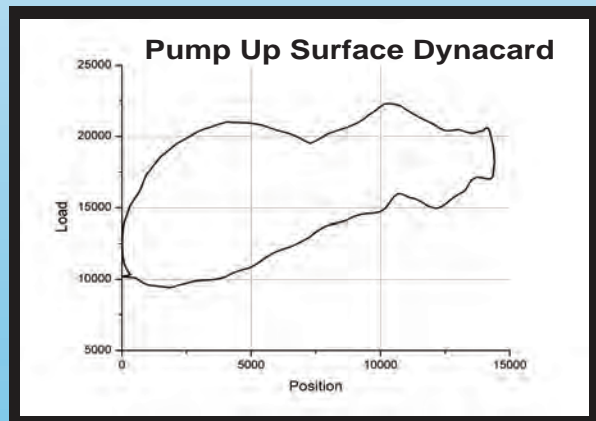

Generate Custom Reports and View Live Data

Our hosting system has the ability to create custom reports of what you need. By the year, month, week, day, or up to the minute, you can view reports, analysis, and trends.

Alarming

Automatic Alarms are sent by Email, SMS Text, to mobile phone and pager. Alarm severity levels can be set from low, medium, and high. This data is also stored for reporting.

Integration Ability

Software Integrates with a wide variety of controllers and manufacturers to help ensure a more seamless operation.

Severity	Time
High	1/11/2010 8:23:44.093 PM
Medium	1/12/2010 2:39:33.921 AM
Medium	1/11/2010 12:41:26.031...
Low	1/12/2010 2:51:18.578 AM
Low	1/11/2010 4:49:24.593 PM
Low	1/12/2010 8:23:47.031 AM
Low	1/12/2010 5:40:17.062 AM
Low	1/12/2010 5:34:46.906 AM
Low	1/12/2010 1:37:47.031 AM
Low	1/11/2010 11:19:42.218...
Critical	1/6/2010 7:49:50.515 AM
